Updated October 2026

KATIE OSHINS

k.oshins@northeastern.edu • (702) 596-6735

EDUCATION

2021 - 2025 **Emory University,** Atlanta, GA
B.S. in Psychology; Minor in Neuroethics
GPA: 3.91/4.00
Honors Thesis (Highest Honors): *Individual and developmental differences in aversive and appetitive extinction learning*; Advisor: Alexandra O. Cohen, PhD

HONORS & AWARDS

2025 Highest Honors, Department of Psychology, Emory University
2025 Emory 100 Senior Honorary, Emory University
2024 Psi Chi International Honor Society in Psychology
2023 Omicron Delta Kappa National Leadership Society; awarded to <1% of the Emory student body
2023 Nu Rho Psi National Honors Society in Neuroscience
2021 - 2024 Dean's List, Emory College of Arts and Sciences

GRANTS & FELLOWSHIPS

2025 **Conference Presentation Grant**, Emory University ($750)

2025 - 2026 **Undergraduate Research Grant**, Psi Chi International Honor Society in Psychology ($1,500)
Individual Differences in Emotional Learning Across Development
Role: PI (Advisor: Alexandra O. Cohen, PhD)

2024 - 2025 **Independent Research Grant**, Emory University ($1,000)
Modifying Positive and Negative Associations Across Development
Role: PI (Advisor: Alexandra O. Cohen, PhD)

2023 **Summer Undergraduate Research Experience Scholar**, Emory University ($3,500)
Modifying Learned Threat Associations Using Positive Reinforcement across Development

MANUSCRIPTS

(⁺ Mentee; * Equal contribution)

1. **Oshins, K.*** & Rothstein, D.* (2026). A Legal Time Bomb: Toward Enforceable Accountability for AI Psychotherapy. *The American Journal of Bioethics*, 26(2), 78–80. https://doi.org/10.1080/15265161.2025.2608631

2. Ohashi, Y. B., **Oshins, K.**, Daniel, N. G. (2026). Timing matters: Longitudinal insights into emotion regulation following life stress in adolescence. *Journal of Mental Health & Clinical Psychology*, 10(3), 1–6. https://doi.org/10.29245/2578-2959/2026/3.1375

3. Kumar, R., **Oshins, K.**, Cohen, A. O. (Under Review). Learning under uncertainty in adolescence. Invited submission, *Current Opinion in Behavioral Sciences.* [Preprint]

4. **Oshins, K.**, Savalia, T., Sauceda, M.⁺, Yin, G.⁺, Cohen, A. O. (Submitted). Dynamic learning from good and bad outcomes peaks and persists in adolescence. [Preprint] [Preregistration]

5. Ohashi, Y. B., Daniel, N. G.*, **Oshins, K.***, Salisbury, A.*, Mair, P., McLaughlin, K. A. (in prep). How adolescents think about stress: A longitudinal study of stress mindset and psychopathology.

6. **Oshins, K.**, Leshin, J., Somerville, L. H., Rodman, A. M. (in prep). Developmental differences in neural responses to unexpected social evaluation.

CONFERENCE PRESENTATIONS (selected)

1. **Oshins, K.**, Hegefeld, H. M., Leshin, J., Rodman, A. M. (2026). Developmental Differences in Neural Responses to Unexpected Social Evaluation. Poster presentation at the annual Flux Developmental Cognitive Neuroscience Congress, La Jolla, CA. [PDF]

2. **Oshins, K.**, Sauceda, M.[+], Yin, G. J.[+], Savalia, T., Martin, S., Cohen, A. O. (2026). Individual Differences in Emotional Learning Across Development. Poster presentation at the annual Computational Psychiatry Conference, Yale University, New Haven, CT. [PDF]

3. **Oshins, K.**, Caproni, B., Hegefeld, H. M., Rodman, A. M. (2026). Temporal Dynamics of Affect in Adolescence: An ecological momentary assessment network analysis. Poster presentation at the annual Society for Digital Mental Health Conference, Virtual. [PDF]

4. Caproni, B., **Oshins, K.**, Hegefeld, H. M., Choube, A., Akridge, E., Cotter, G. K., Burns, J. A., Shrestha, S., Leshin, J., Mishra, V., Rodman, A. M. (2026). Sensing (and Making Sense of) Anomalous Digital Social Activity in Adolescents. Flash talk at the annual Society for Digital Mental Health Conference, Virtual.

5. Laky, Z. E., Lam, K. C., **Oshins, K.**, Pine, D. S., Grasser, L. R., Brotman, M. A., Nielson, D. M. (2026). Longitudinal Factorization of Youth Psychopathology in the Adolescent Brain Cognitive Development (ABCD) Study. Poster presentation at the annual Association for Psychological Science (APS) meeting, Barcelona, Spain.

6. **Oshins, K.**, Leshin, J., Rodman, A. M. (2026). Surprised by others, shaped within: Unexpected social feedback drives age-dependent differences in neural activity and self-perception. Poster presentation at the Cognitive and Brain Health Institute Day, Northeastern University, Boston, MA. [PDF]

7. Choube, A.[*], Shrestha, S.[*], Caproni, B., **Oshins, K.**, Akridge, E., Cotter, G., Rodman, A. M., Mishra, V. (2025). Real-time Anomaly-driven Ecological Momentary Assessments to Capture Varying Mental and Behavioral States among Adolescents. Poster presentation at the annual Digital Health Summit, Dartmouth University, Hanover, NH.

8. **Oshins, K.**, Sauceda, M.[+], Savalia, T., Martin, S., Cohen, A. O. (2025). Individual and Developmental Differences in Appetitive and Aversive Extinction Learning. Poster presentation at the annual Association for Psychological Science (APS) meeting, Washington, D.C.

9. **Oshins, K.**, Sauceda, M.[+], Savalia, T., Martin, S., Cohen, A. O. (2025). Individual and developmental differences in emotional learning. Oral presentation at the annual Undergraduate Research Symposium, Emory University, Atlanta, GA.

10. **Oshins, K.**, Lam, K. C., Nielson, D. M., Pereira, F., Brotman, M. A., Pine, D. S., Laky, Z. E. (2024). Clinical associations with executive function: Longitudinal findings from the Adolescent Brain Cognitive Development (ABCD) Study. Poster presentation at the annual National Institutes of Health Summer Poster Day, Bethesda, MD. [PDF]

11. **Oshins, K.**, Martin, S., Sauceda, M.[+], Cohen, A. O. (2024). Influences of positive reinforcement on learned threat associations across development. Poster presentation at the Social and Affective Neuroscience Society (SANS) annual meeting, Toronto, Canada.

RESEARCH EXPERIENCE

Jun. 2025 - Present

Social Development and Wellbeing Lab, Institute for Cognitive and Brain Health, Northeastern University
Research Coordinator & Study Lead, Principal Investigator: Alexandra Rodman, PhD

Independent Project 1: *Developmental Differences in Neural Responses to Unexpected Social Evaluation*

- Conduct task-based fMRI analysis to understand the developmental trajectories of learning from and remembering peer feedback
- Develop neuroimaging processing pipeline using fMRIprep, FSL, and SPM

Independent Project 2: *Temporal Dynamics of Affect in Adolescence: An ecological momentary assessment network analysis*

- Analyze intensive longitudinal ecological momentary assessment (EMA) data and apply multilevel vector autoregressive (mlVAR) models in R to characterize group- and person-level affective dynamics across adolescence

General research and clinical responsibilities:

- Develop, launch, and manage all components of a multimodal intensive 8-month longitudinal study focused on adolescents' social development and mental health funded by the NIMH, Templeton Foundation, and OpenAI
- Recruit, screen, consent, collect data, and maintain a caseload of participants ages 12-17 and their families and oversee all full-time staff caseloads
- Collect data for and manage all data streams, ensuring reliability and participant compliance (e.g., passive sensing via smartphone and smartwatch, EMA, clinical interviews, experimental paradigms, fMRI, surveys, etc.)
- Maintain regulatory documentation, create standard operating procedures and protocol documentation, lead IRB submissions, and write grant progress reports
- Lead training and onboarding of new full-time lab members and undergraduates, and directly mentor 6+ undergraduates with 4 on independent research projects

Aug. 2022 - May 2025 **Learning, Understanding, Memory, and Neurodevelopment (LUMeN) Lab, Department of Psychology, Emory University**
Research Assistant, Principal Investigator: Alexandra O. Cohen, PhD

Independent Project 1 (Honors Thesis): *Individual and developmental differences in aversive and appetitive extinction learning and memory*

- Conducted literature review, proposed, and designed independent project
- Programmed stimulus presentations scripts in R and Pavlovian conditioning paradigm and memory test in PsychoPy and implemented skin-conductance response (SCR) and electrocardiogram (ECG) into behavioral tasks via BIOPAC and AcqKnowledge
- Analyzed behavioral and physiological data using generalized linear mixed-effects models, generalized additive models, and reinforcement learning and latent cause computational models in R and MATLAB
- Recruited, screened, and ran participants ages 10-25 from greater Atlanta area
- Mentored and trained a team of 4+ undergraduate students on study protocol

Project 2: *Neurocognitive mechanisms of reward-motivated memory persistence across age*

- Helped conceptualize and design a novel fMRI task in PsychoPy to identify uniquely rewarding experiences across development
- Recruited and collected fMRI, EMA, Fitbit, and behavioral survey data from participants ages 10-25 from the greater Atlanta area

Jun. 2024 - Aug. 2024 **Neuroscience and Novel Therapeutics Unit, National Institute of Mental Health (NIMH)**
Summer Research Intern, Principal Investigator: Melissa Brotman, PhD

Project: *Longitudinal Factorization of Youth Psychopathology, Supervisor: Zoë Laky, MA*

- Collated literature on developmental trajectories of executive function and psychopathology
- Co-developed preprocessing pipeline for behavioral and clinical data from two large longitudinal consortium studies in Python
- Collaborated with NIMH Machine Learning Core to develop an application framework for a novel non-negative matrix factorization algorithm that leverages statistical learning theory to identify patterns of co-varying psychological symptoms over development

RELEVANT CLINICAL EXPERIENCE

Jan. 2022 - May 2025 **Emory Helpline**
President & Outreach Chair, Advisor: Irene Daboin Dominguez, PhD

- Served young adult populations presenting with a variety of clinical symptoms including depression, anxiety, trauma, self-harm, suicidal ideation, and substance abuse

- Facilitated communication between the Counseling and Psychological Services staff advisor and members, led clinical supervisions, and oversaw and supported all other executive board members

Feb. 2025 - Apr. 2025 **Path DBT for Families**
Coach, Supervisor: Allison LoPilato, PhD
- Facilitated DBT activities and didactics sessions related to emotion labeling, emotion dysregulation, and therapy skills for group members (ages 8-11)
- Implemented challenging group experiences to facilitate individualized emotion exposure and skills practice

TEACHING EXPERIENCE

Fall 2024 **Introduction to Neuroethics (NBB 280)**
Teaching Assistant, Professor: Gillian Hue, PhD

Fall 2023 - Spring 2024 **Behavioral Neuroscience (NBB 302 & PSYC 353)**
Teaching Assistant, Professor: Alex Grizzell, PhD

2020 - 2021 **Mathnasium, The Math Learning Center**
Math Instructor & Lesson Coordinator

LEADERSHIP & COMMUNITY INVOLVEMENT (selected)

2024 - 2025 **Emory Undergraduate Research Programs**
Research Ambassador & Communications Director | Emory University

2022 - 2025 **Title IX Student Advisory Committee**
Founding Member & Co-Organizer | Emory University

2022 - 2025 **Young Democrats of Emory**
Organizing Director | Emory University

2024 **Students for Harris**
Co-President | Emory University

SCIENCE OUTREACH & SERVICE (selected)

2026 **Boston Public Schools**
AP Psychology Guest Speaker: Development and Learning | Boston, MA

2026 **Steppingstone Boston**
Guest Presenter: Academic & Career Paths in Psychology | Boston, MA

2022 - 2025 **Grey Matters**
Journal Editor | Emory University

2023 - 2024 **Buddy Program Member**
Emory Synapse | Emory University

RESEARCH MENTORING

(* fellowship recipient; ^ first-authored poster of our project, ~ co-authored publication of our project)

Northeastern University: Amelia Klug*^ (2025 - present), Meera Shukla*^ (2025 - present), Eliza Gibbs (2025 - present), Hana Panick* (2025 - present), Bailin Lui*^ (2025 - 2026), Soumya Raguraman^ (2025 - 2026), Cal Chertavian (2025 - 2026)

Emory University: Grace Yin^~ (2024 - 2026), Michelle Sauceda^~ (2023 - 2025), Coco Sandoval (2024 - 2025)

RELEVANT SKILLS

Programming *Proficient:* R/Rstudio, Python, MATLAB
Basic: Bash (including HPC/Slurm job scripting), JavaScript, CSS, HTML

Software	PsychoPy, fMRIPrep, FSL, SPM, Nipype, AcqKnowledge, Qualtrics, REDCap, Github, Gitlab/Pavlovia, jsPsych/Cognition, SONA, Prolific, Excel
Data Acquisition	fMRI Siemens certified operator, BIOPAC physiology (electrodermal activity, electrocardiogram, hand clench dynamometer), actigraphy, EMA, smartphone sensing, qualitative interviews
Clinical Interviews	Kiddie Schedule for Affective Disorders and Schizophrenia (KSADS), UCLA Life Stress Interview (LSI), risk assessment

SELECTED TRAININGS & WORKSHOPS

2026 Emerging Best Practices for Precision fMRI in Developmental Research, Flux Congress
2026 Estimating Computational Models from Behavioral Data, Computational Psychiatry Conference
2026 Local Large Language Models for Sentiment Analysis of Clinical Text, Computational Psychiatry Conference
2026 Analysis of Functional NeuroImages (AFNI) Bootcamp, National Institute of Health
2025 Introduction to Group Iterative Multiple Model Estimation (GIMME), Northeastern University
2025 Boston Precision Brain & Mental Health Hackathon, Northeastern University
Project: How to make a reproducible neuroimaging workflow
2025 Applied Statistical Data Analysis in Psychology I (graduate-level course audit), Harvard University
2025 Accelerate Your Neuroimaging Research with the FASSE Compute Cluster, Harvard University
2025 Introduction to the Command Line, Center for Brain Science, Harvard University
2025 MRI Safety Training, Center for Brain Science, Harvard University
2022 QPR Suicide Prevention Gatekeeper Training, Emory University
